MUST STOP APRIL 1ST.

Positively there are no two ways about it. Every newspaper in the United States and the Record among the number must stop every subscription April 1, 1908, unless it is paid up within one year. We did not make the law, we cannot unmake or alter it. Any newspaper which sends a paper after April 1, 1908, on which there is more than one year due and no settlement has been made, unless it separates out all such papers and places a one cent stamp on each one, violates the law and is liable to lose its right to send papers through the mails at the second-class postage rate. This no paper published at \$1.00 per year can afford to do. We have tried to make this matter plain without dunning, simply giving the facts from time to time that our position might be thoroughly understood. As we have said before, we do not want to stop a single subscription and hope it will not be necessary.
